About this segment

Urban Chic

This is the

#1

dominant segment
for this area

In this area

38.9%

of households fall
into this segment

In the United States

1.3%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Urban Chic residents are professionals who live a sophisticated, exclusive lifestyle. Half of all households are occupied by married-couple families, and about 30 percent are singles. These are busy, well-connected and well-educated consumers—avid readers and moviegoers, environmentally active and financially stable. This market is a bit older, with a median age of almost 43 years, and growing slowly, but steadily.

Our Neighborhood

- More than half of Urban Chic households include married couples; 30% are singles.
- Average household size is slightly lower than average at 2.37.
- Homes range from prewar to recent construction, high-rise to single family.
- Over 60% of householders live in single-family homes; more than one in four live in multi-unit structures.
- Two-thirds of homes are owner occupied.
- Major concentrations of these neighborhoods are found in the suburban periphery of large metropolitan areas on the California coast and along the East Coast.
- Most households have two vehicles available. Commuting time is slightly longer, but commuting by bicycle is common.

Market Profile

- Shop at Trader Joe's, Costco or Whole Foods.
- Eat organic foods, drink imported wine, and truly appreciate a good cup of coffee.
- Travel extensively (domestically and internationally).
- Prefer to drive luxury imports and shop at upscale establishments.
- Embrace city life by visiting museums, art galleries and movie theaters for a night out.
- Avid book readers of both digital and audio formats.
- Financially shrewd residents that maintain a healthy portfolio of stocks, bonds and real estate.
- In their downtime, enjoy activities such as skiing, yoga, hiking and tennis.

Socioeconomic Traits

- Well educated, more than 60% of residents hold a bachelor's degree or higher.
- Unemployment rate is well below average at 5%; labor force participation is higher at 69%.
- Residents are employed in white-collar occupations—in managerial, technical and legal positions.
- Over 40% of households receive income from investments.
- Environmentally aware, residents actively recycle and maintain a "green" lifestyle.
- These busy, tech-savvy residents use PCs extensively for an array of activities such as shopping, banking and staying current—a top market for Apple computers.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Exurbanites

This is the
#2
dominant segment
for this area

In this area
17.4%
of households fall
into this segment

In the United States
1.9%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Exurbanites residents are approaching retirement but showing few signs of slowing down. They are active in their communities, generous in their donations, and seasoned travelers. They take advantage of their proximity to large metropolitan centers to support the arts, but prefer a more expansive home style in less crowded neighborhoods. They have cultivated a lifestyle that is both affluent and urbane.

Our Neighborhood

- Established neighborhoods (most built between 1970 and 1990) found in the suburban periphery of large metropolitan markets.
- A larger market of empty nesters, married couples with no children; average household size is 2.48.
- Primarily single-family homes with a high median value of \$346,000, most still carrying mortgages.
- Higher vacancy rate at 9%.

Socioeconomic Traits

- Residents are college educated; more than half have a bachelor's degree or higher; almost 80% have some college education.
- This labor force is beginning to retire. One in three households currently receive Social Security or retirement income. Labor force participation has declined to less than 60%.
- Unemployment remains low at 5.5%; more of the residents prefer self-employment or working from home.
- Consumers are more interested in quality than cost. They take pride in their homes and foster a sense of personal style.
- Exurbanites residents are well connected, using the Internet for everything from shopping to managing their finances.
- Sociable and hardworking, they still find time to stay physically fit.

Market Profile

- Exurbanites residents' preferred vehicles are late-model luxury cars or SUVs.
- They are active supporters of the arts and public television/radio.
- Attentive to ingredients, they prefer natural or organic products.
- Gardening and home improvement are priorities, but they also use a number of services, from home care and maintenance to personal care.
- Financially active with wide-ranging investments, these investors rely on financial planners, extensive reading and the Internet to handle their money.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment Trendsetters

This is the
#3
dominant segment
for this area

In this area
15.8%
of households fall
into this segment

In the United States
1.1%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Armed with the motto "you're only young once," Trendsetters residents live life to its full potential. These educated young singles aren't ready to settle down; they do not own homes or vehicles and choose to spend their disposable income on upscale city living and entertainment. Dressed head to toe in the most current fashions, their weeknights and weekends are filled discovering local art and culture, dining out or exploring new hobbies. Their vacations are often spontaneous, packed with new experiences and chronicled on their Facebook pages.

Our Neighborhood

- Trendsetters residents are singles—living alone or with roommates or partners.
- Approximately 75% rent in upscale, multi-unit structures.
- High-rent cities like New York; San Francisco; Chicago; and Washington, D.C. are popular among renters willing to pay well above U.S. average rent.
- Commuting can take up to an hour; public transportation, walking and biking are popular; many own no vehicle.

Socioeconomic Traits

- These residents are young and well educated; almost half have a bachelor's degree or more.
- Well paid, with little financial responsibility, these consumers are spenders rather than savers. They seek financial advice and are already building their stock portfolios.
- Image is important to these consumers. They use the Internet to keep up with the latest styles and trends and shop around for good deals.
- Trendsetters residents travel often, exploring new destinations and experiences.
- Socially and environmentally conscious, they are willing to pay more for products that support their causes.
- Up-to-date on technology, they explore and exploit all the features of their smartphones.
- They are attentive to good health and nutrition.

Market Profile

- Not only do Trendsetters residents spend freely on fashionable and branded clothing, they also own the latest in cell phones and tablets.
- Particularly for residents that often work at home, wireless Internet access is a must. Many are fans of Mac computers.
- To keep up with their busy social calendar, they are always connected. Texting is their preferred form of communication, but they also dedicate time to social media, recounting their experiences via Facebook and Twitter.
- Trendsetters residents seek out new adventures—explore local arts and culture, take on new hobbies such as drawing or painting; often make last-minute travel plans.
- These avid readers embrace e-books and e-newspapers but do prefer hard-copy versions of women's fashion and epicurean magazines.
- Trendsetters residents jog, run or walk for exercise and occasionally attend a yoga class.
- These consumers shop at Whole Foods or Trader Joe's and buy organic when they can; however, their cart is more often filled with prepared or ready-to-heat meals.
- To suit their urban lifestyle (and parking options), the cars they own are subcompact.

About this segment Golden Years

This is the
#4
dominant segment
for this area

In this area
8.8%
of households fall
into this segment

In the United States
1.3%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Golden Years residents are independent, active seniors nearing the end of their careers or already in retirement. This market is primarily singles living alone or empty nesters. Those still active in the labor force are employed in professional occupations; however, these consumers are actively pursuing a variety of leisure interests—travel, sports, dining out, museums and concerts. They are involved, focused on physical fitness and enjoying their lives. This market is smaller, but growing, and financially secure.

Our Neighborhood

- This older market has a median age of 51 years and a disproportionate share (nearly 30%) of residents aged 65 years or older.
- Single-person households (over 40%) and married-couple families with no children (one-third) dominate these neighborhoods; average household size is low at 2.05.
- Most of the housing was built after 1970; approximately 43% of householders live in single-family homes and 42% in multi-unit dwellings.
- These neighborhoods are found in large metropolitan areas, outside central cities, scattered across the U.S.

Socioeconomic Traits

- Golden Years residents are well educated—20% have graduate or professional degrees, 26% have bachelor's degrees, and 26% have some college credits.
- Unemployment is low at 7%, but so is labor force participation at 55%, due to residents reaching retirement.
- Median household income is higher in this market, more than \$61,000. Although wages still provide income to 2 out of 3 households, earned income is available from investments, Social Security benefits and retirement income.
- These consumers are well connected: Internet access is used for everything from shopping or paying bills to monitoring investments and entertainment.
- They are generous supporters of the arts and charitable organizations.
- They keep their landlines and view cell phones more as a convenience.

Market Profile

- Avid readers, they regularly read daily newspapers, particularly the Sunday edition.
- They subscribe to cable TV; news and sports programs are popular as well as on-demand movies.
- They use professional services to maintain their homes inside and out and minimize their chores.
- Leisure time is spent on sports (tennis, golf, boating and fishing) or simple exercise like walking.
- Good health is a priority; they believe in healthy eating, coupled with vitamins and dietary supplements.
- Active social lives include travel, especially abroad, plus going to concerts and museums.
- Residents maintain actively managed financial portfolios that include a range of instruments such as common stock and certificates of deposit (more than six months).

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

City Lights

This is the

#5

dominant segment
for this area

In this area

4.5%

of households fall
into this segment

In the United States

1.4%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

City Lights, a densely populated urban market, is the epitome of equality. The wide-ranging demographic characteristics of residents mirror their passion for social welfare and equal opportunity. Household types range from single person to married-couple families, with and without children. A blend of owners and renters, single-family homes and townhomes, midrise and high-rise apartments, these neighborhoods are racially and ethnically diverse. Many residents have completed some college or a degree, and they earn a good income in professional and service occupations. Willing to commute to their jobs, they work hard and budget well to support their urban lifestyles, laying the foundation for stable financial futures.

Our Neighborhood

- Half of the homes are single-family residences or townhomes.
- Tenure is 50-50: half of households are owned and half are rented. Median home value and average gross rent exceed U.S. values.
- Households include families, both married couples and single parents, as well as singles. The distribution is similar to the U.S., with slightly more single-person households.
- Housing is older in this market: 2 out of 3 homes were built before 1970.
- Most households own one vehicle, but public transportation is still a necessity for daily commutes.

Socioeconomic Traits

- City Lights residents earn above average incomes, but lag the nation in net worth.
- Labor force participation exceeds the U.S. average. Residents work hard in professional and service occupations but also seek to enjoy life.
- These consumers save for the future, often to achieve their dream of home ownership. They often engage in discussion about financial products and services among their peers. They earn dividend incomes from their portfolios but steer away from risky investments.
- These consumers are price savvy but will pay for quality brands they trust.
- Reflecting the diversity of their neighborhoods, residents stand by their belief in equal opportunity.
- Attuned to nature and the environment, and when they can, purchase natural products.

Market Profile

- Price-conscious consumers, they seek out deals on brands they like at warehouse clubs, Walmart or Target.
- Residents are traditional in many ways. They prefer to bank in person but are increasingly paying their bills online. They rarely carry a credit card balance but occasionally buy on credit.
- Most residents have high-speed Internet access at home and use their computers for basic browsing and some shopping. They find technology cumbersome, preferring to make a phone call rather than text. They aren't that keen on social media either.
- These are health-conscious consumers, who purchase low-calorie and low-fat food.
- Dreaming of a brighter future, they often try their luck on the lottery.
- Their taste in music is varied, typically classic rock, alternative or hip hop, and even classical music, listening during their daily commutes.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
