About this segment

Pleasantville

This is the
#1
dominant segment
for this area

In this area
15.5%
of households fall
into this segment

In the United States
2.2%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Prosperous domesticity best describes the settled denizens of Pleasantville. Situated principally in older housing in suburban areas in the Northeast (especially in New York and New Jersey) and secondarily in the West (especially in California), these slightly older couples move less than any other market. Many couples have already transitioned to empty nesters; many are still home to adult children. Families own older, single-family homes and maintain their standard of living with dual incomes. These consumers have higher incomes and home values and much higher net worth. Older homes require upkeep; home improvement and remodeling projects are a priority—preferably done by contractors. Residents spend their spare time participating in a variety of sports or watching movies. They shop online and in a variety of stores, from upscale to discount, and use the Internet largely for financial purposes.

Our Neighborhood

- Suburban periphery of large metropolitan areas, primarily in Middle Atlantic or Pacific states.
- Most homes owned (and mortgaged).
- Households composed of older married-couple families, more without children under 18, but many with children over 18 years.
- Older, single-family homes: two-thirds built before 1970, close to half from 1950 to 1969.
- One of the lowest percentages of vacant housing units at 4.7%.
- Suburban households with 1 or 2 vehicles and a longer travel time to work.

Socioeconomic Traits

- Education: 64% college educated, 34% with a bachelor's degree or higher.
- Low unemployment at 7.8%; higher labor force participation rate at 67%; higher proportion of HHs with 2 or more workers.
- Many professionals in finance, information/technology or management.
- Median household income denotes affluence, with income primarily from salaries, but also from investments or Social Security and retirement income.
- Not cost-conscious, these consumers willing to spend more for quality and brands they like.
- Prefer fashion that is classic and timeless as opposed to trendy.
- Use all types of media equally (newspapers, magazines, radio, Internet, TV).

Market Profile

- Prefer imported SUVs, serviced by a gas station or car dealer.
- Invest in conservative securities and contribute to charities.
- Work on home improvement and remodeling projects, but also hire contractors.
- Have bundled services (TV/Internet/phone).
- Access the Internet via fiber optics or cable modem, on a newer computer, to pay bills, make purchases and track investments.
- Subscribe to premium channels (HBO, Showtime or Starz) and use video-on-demand to watch TV shows and movies.
- Enjoy outdoor gardening, going to the beach, visiting theme parks, frequenting museums and attending rock concerts.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Trendsetters

This is the

#2

dominant segment for this area

In this area

11.4%

of households fall into this segment

In the United States

1.1%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Armed with the motto "you're only young once," Trendsetters residents live life to its full potential. These educated young singles aren't ready to settle down; they do not own homes or vehicles and choose to spend their disposable income on upscale city living and entertainment.

Dressed head to toe in the most current fashions, their weeknights and weekends are filled discovering local art and culture, dining out or exploring new hobbies. Their vacations are often spontaneous, packed with new experiences and chronicled on their Facebook pages.

Our Neighborhood

- Trendsetters residents are singles—living alone or with roommates or partners.
- Approximately 75% rent in upscale, multi-unit structures.
- High-rent cities like New York; San Francisco; Chicago; and Washington, D.C. are popular among renters willing to pay well above U.S. average rent.
- Commuting can take up to an hour; public transportation, walking and biking are popular; many own no vehicle.

Socioeconomic Traits

- These residents are young and well educated; almost half have a bachelor's degree or more.
- Well paid, with little financial responsibility, these consumers are spenders rather than savers. They seek financial advice and are already building their stock portfolios.
- Image is important to these consumers. They use the Internet to keep up with the latest styles and trends and shop around for good deals.
- Trendsetters residents travel often, exploring new destinations and experiences.
- Socially and environmentally conscious, they are willing to pay more for products that support their causes.
- Up-to-date on technology, they explore and exploit all the features of their smartphones.
- They are attentive to good health and nutrition.

Market Profile

- Not only do Trendsetters residents spend freely on fashionable and branded clothing, they also own the latest in cell phones and tablets.
- Particularly for residents that often work at home, wireless Internet access is a must. Many are fans of Mac computers.
- To keep up with their busy social calendar, they are always connected. Texting is their preferred form of communication, but they also dedicate time to social media, recounting their experiences via Facebook and Twitter.
- Trendsetters residents seek out new adventures—explore local arts and culture, take on new hobbies such as drawing or painting; often make last-minute travel plans.
- These avid readers embrace e-books and e-newspapers but do prefer hard-copy versions of women's fashion and epicurean magazines.
- Trendsetters residents jog, run or walk for exercise and occasionally attend a yoga class.
- These consumers shop at Whole Foods or Trader Joe's and buy organic when they can; however, their cart is more often filled with prepared or ready-to-heat meals.
- To suit their urban lifestyle (and parking options), the cars they own are subcompact.

About this segment

Exurbanites

This is the
#3
dominant segment
for this area

In this area
9.5%
of households fall
into this segment

In the United States
1.9%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Exurbanites residents are approaching retirement but showing few signs of slowing down. They are active in their communities, generous in their donations, and seasoned travelers. They take advantage of their proximity to large metropolitan centers to support the arts, but prefer a more expansive home style in less crowded neighborhoods. They have cultivated a lifestyle that is both affluent and urbane.

Our Neighborhood

- Established neighborhoods (most built between 1970 and 1990) found in the suburban periphery of large metropolitan markets.
- A larger market of empty nesters, married couples with no children; average household size is 2.48.
- Primarily single-family homes with a high median value of \$346,000, most still carrying mortgages.
- Higher vacancy rate at 9%.

Socioeconomic Traits

- Residents are college educated; more than half have a bachelor's degree or higher, almost 80% have some college education.
- This labor force is beginning to retire. One in three households currently receive Social Security or retirement income. Labor force participation has declined to less than 60%.
- Unemployment remains low at 5.5%; more of the residents prefer self-employment or working from home.
- Consumers are more interested in quality than cost. They take pride in their homes and foster a sense of personal style.
- Exurbanites residents are well connected, using the Internet for everything from shopping to managing their finances.
- Sociable and hardworking, they still find time to stay physically fit.

Market Profile

- Exurbanites residents' preferred vehicles are late-model luxury cars or SUVs.
- They are active supporters of the arts and public television/radio.
- Attentive to ingredients, they prefer natural or organic products.
- Gardening and home improvement are priorities, but they also use a number of services, from home care and maintenance to personal care.
- Financially active with wide-ranging investments, these investors rely on financial planners, extensive reading and the Internet to handle their money.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Enterprising Professionals

This is the

#4

dominant segment for this area

In this area

8.3%

of households fall into this segment

In the United States

1.4%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Enterprising Professionals residents are well educated and climbing the ladder in STEM (science, technology, engineering and mathematics) occupations. They change jobs often and therefore choose to live in condos, townhomes or apartments; many still rent their homes. The market is fast-growing, located in lower-density neighborhoods of large metro areas. Enterprising Professionals residents are diverse, with Asians making up over one-fifth of the population. This young market makes over one and a half times more income than the U.S. median, supplementing their income with high-risk investments. At home, they enjoy the Internet and TV on high-speed connections with premier channels and services.

Our Neighborhood

- Almost half of households are married couples, and 30% are single-person households.
- Housing is a mixture of suburban single-family homes, row homes, and larger multi-unit structures.
- Close to three quarters of the homes were built after 1980; 22% are newer, built after 2000.
- Renters make up nearly half of all households.

Socioeconomic Traits

- Median household income one and a half times that of the U.S.
- Over half hold a bachelor's degree or higher.
- Early adopters of new technology in hopes of impressing peers with new gadgets.
- Enjoy talking about and giving advice on technology.
- Half have smartphones and use them for news, accessing search engines and maps.
- Work long hours in front of a computer.
- Strive to stay youthful and healthy, eat organic and natural foods, run and do yoga.
- Buy name brands and trendy clothes online.

Market Profile

- Buy digital books for tablet reading, along with magazines and newspapers.
- Frequent the dry cleaner.
- Go on business trips, a major part of work.
- Watch movies and TV with video-on-demand and HDTV over a high-speed connection.
- Convenience is key—shop at Amazon.com and pick up drugs at the Target pharmacy.
- Eat out at The Cheesecake Factory and Chick-fil-A; drop by Starbucks for coffee.
- Leisure activities include gambling, trips to museums and the beach.
- Have health insurance and a 401(k) through work.

About this segment

Urban Chic

This is the

#5

dominant segment for this area

In this area

7.7%

of households fall into this segment

In the United States

1.3%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Urban Chic residents are professionals who live a sophisticated, exclusive lifestyle. Half of all households are occupied by married-couple families, and about 30 percent are singles. These are busy, well-connected and well-educated consumers—avid readers and moviegoers, environmentally active and financially stable. This market is a bit older, with a median age of almost 43 years, and growing slowly, but steadily.

Our Neighborhood

- More than half of Urban Chic households include married couples; 30% are singles.
- Average household size is slightly lower than average at 2.37.
- Homes range from prewar to recent construction, high-rise to single family.
- Over 60% of householders live in single-family homes; more than one in four live in multi-unit structures.
- Two-thirds of homes are owner occupied.
- Major concentrations of these neighborhoods are found in the suburban periphery of large metropolitan areas on the California coast and along the East Coast.
- Most households have two vehicles available. Commuting time is slightly longer, but commuting by bicycle is common.

Market Profile

- Shop at Trader Joe's, Costco or Whole Foods
- Eat organic foods, drink imported wine, and truly appreciate a good cup of coffee.
- Travel extensively (domestically and internationally).
- Prefer to drive luxury imports and shop at upscale establishments.
- Embrace city life by visiting museums, art galleries and movie theaters for a night out.
- Avid book readers of both digital and audio formats.
- Financially shrewd residents that maintain a healthy portfolio of stocks, bonds and real estate.
- In their downtime, enjoy activities such as skiing, yoga, hiking and tennis.

Socioeconomic Traits

- Well educated, more than 60% of residents hold a bachelor's degree or higher.
- Unemployment rate is well below average at 5%; labor force participation is higher at 69%.
- Residents are employed in white-collar occupations—in managerial, technical and legal positions.
- Over 40% of households receive income from investments.
- Environmentally aware, residents actively recycle and maintain a "green" lifestyle.
- These busy, tech-savvy residents use PCs extensively for an array of activities such as shopping, banking and staying current—a top market for Apple computers.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
